2 Math

2.1 Equations

You can write equations in the middle of a sentence, this one, $E = mc^2$, is a little different than normal text, but it fits well.

There are some math symbols that are a little hard to find, you can use <https://detexify.kirelabs.org/classify.html> to find them. For example, this sum: $\sum F = ma$.

And you can even make a group of equations:

$$\begin{aligned} A &= \frac{\pi^2}{2} \\ B &= \frac{1}{2}\pi^2 \end{aligned} \tag{1}$$
